

BOOKING

A RECORDING APPOINTMENT

ONLINE
LEARNING

The Online Learning Media Studio offers faculty 3 options to self-produce content for their online courses. We handle the technical & hardware side of recording & all you need to do is present your content.

- The Mac and PC recording rooms are directly connected to Panopto and your Canvas course. That means you don't have to deal with transferring or editing files. All recorded content is immediately placed where you need it.

- The layouts of the Mac and PC rooms can be configured with an iPad or document camera to suit your needs.

- The Lightboard Studio provides the familiarity of writing on a whiteboard with the added benefit of letting you maintain eye contact with your audience
